At JD, we believe everyone has a unique talent. Some people know how to use fabric and colours to inspire confidence. Some can arrange a room in a way that energizes people. Whereas, some can craft fine pieces of jewellery. Some are excellent in capturing beauty through their lenses. There are some who can create magic with a stroke of their brush. And some can turn into a head turner. Whatever your unique talent is, at JD we empower you to transform it to change your world forever.

PIONEERS

Rtn. Chandraakant Dalal

Founder

JD Institute of Fashion Technology

04.12.1946 - 07.07.2017

Shri. R.C. Dalal

Founder & Executive Director

JD Institute of Fashion Technology

20.02.1968 - 13.10.2017

The JD story can be traced to a time when design education was not considered the 'conventional' choice. However, the visionaries - Mr. Chandraakant Dalal and Mr. RC Dalal stepped into this uncharted territory to turn it into a feasible career choice for the youth.

The Founders were of the belief that Design Education is for all. In order to tread on the path of design one needs only three things - the ability to draw a straight line, imagination, and hard work. Skills could be taught.

Through their unconditional dedication the institute has guided 20,000+ young minds to successful design careers. More than thirty years ago, the founders were driven to turn 'impossible' into reality. As a result, they continue to inspire each new generation to follow their dreams.

CREATE

Nealesh Dalal
Managing Trustee

JD Institute of Fashion Technology has always been synonymous with excellence, driven by a commitment to nurturing budding designers who will shape the future. The core values that have guided us thus far - passion, integrity, collaboration, and the pursuit of excellence - remain as steadfast as ever and give rise to skilled designers who will become responsible global citizens.

Looking ahead, I foresee a future where our design students will be torchbearers of change, transcending traditional boundaries & reimagining possibilities. As the world evolves the role of designers becomes paramount.

Our commitment to making design education accessible for all encapsulates our aspiration to create designs that are inclusive, accessible, and meaningful to a diverse spectrum of people. In a world that is becoming increasingly interconnected, our creations must resonate with every individual, regardless of their background, abilities, or circumstances.

As you immerse yourselves in your chosen fields of design, always keep in mind the responsibility you carry. Each stroke of your pen, each pixel you manipulate, and each material you choose has the potential to shape perceptions, experiences, and lives.

Together, let's embark on this exciting journey, forging ahead with the spirit of innovation. The world is your canvas, and I have no doubt that your creations will leave an indelible mark.

LEADERS

Yogesh Dalal

Transform Spaces, Transform Lives

M.Sc. in

INTERIOR DESIGN

- 2 Years **

Eligibility: Any degree from the UGC Recognised university

Why this course?

The M.Sc. in Interior Design is for those who wish to advance their skills and knowledge in the field of interior design. Whether you are looking to refine your creative flair, understand advanced design techniques, or gain expertise in sustainable design practices, this program equips you with the tools necessary to thrive in the ever-evolving interior design industry.

What will you learn?

- Advanced Interior Design Concepts
- Space Planning & Ergonomics
- Materials, Textiles, and Sustainability
- Lighting Design
- Architectural Drafting & 3D Modeling
- Interior Design Theory & Research
- Project Management & Professional Practice
- Innovation and Technology

How can you start your career?

- Senior Interior Designer
- Interior Design Consultant
- Sustainability Expert
- Creative Director
- Set Designer for Films & TV
- 3D Visualizer
- Furniture Designer
- Entrepreneur in Interior Design

Course Structure

First Year

- History of Interior Design
- Interior Materials Sourcing & Finishes
- Design Thinking
- Architectural Graphics
- Concepts & Space Planning in Interior Design
- AutoCAD
- Estimation & Costing
- Building Services
- Furniture & Lighting Design in Interiors
- Communication Design
- SketchUp
- Hospitality Project - Restaurant Project

Second Year

- Landscape Design
- Interior Styling
- Research Methodology & Publication
- Working Drawing in Interior Design - 1
- Interior Design for Commercial Project
- Revit
- Business of Interior Design
- Sustainable Design in Interior
- Working Drawing in Interior Design - 2
- Portfolio Development
- Interior Design Project (Thesis)

**All degrees are provided by respective universities which the centre is associated with

Lead the Future of Interior Design

M. Des. in

INTERIOR DESIGN - 2 Years **

Eligibility: Any degree from the UGC Recognised university

Why this course?

The M.Des. in Interior Design is an advanced course that is designed for creative minds who aspire to push the boundaries of interior design. This program is perfect for those looking to enhance their skills, learn cutting-edge design techniques, and explore the latest trends and technologies in the interior design industry.

What will you learn?

- Advanced Interior Design Theory
- Innovative Design Techniques
- Sustainability in Interior Design
- Materials and Finishes
- Lighting Design
- Smart Interiors & Technology
- Client Communication & Project Management

How can you start your career?

- Interior Designer
- Interior Design Consultant
- Creative Director
- Sustainability Expert
- Furniture Designer
- Lighting Designer
- Entrepreneur in Interior Design

Course Structure

First Year

- Visualization and Representation
- Design Foundations
- Sustainable Practices
- Research Methodology
- Human-Centered Design & Innovation
- Emerging Materials & Sustainable Finishes
- Project Budgeting & Cost Management
- Digital Design & Visualization
- Integrated Design Studio - I

Second Year

- Research Writing and Publication
- Integrated Building Systems & Services
- Technical Drawings & Construction Documentation
- Advanced Digital Modeling & Visualization
- Integrated Design Studio II
- Sustainable & Biophilic Interior Design
- Entrepreneurship & Management in Interior Design
- Professional Portfolio & Brand Identity
- Spatial Styling & Visual Merchandising
- Dissertation/Master's Research Project

**All degrees are provided by respective universities which the centre is associated with

Create Impactful User Experiences with Cutting-Edge Design
MA in

USER EXPERIENCE AND INTERACTION DESIGN (UI/UX)

- 2 Years **

Eligibility: Any degree from the UGC Recognised university

Why this course?

The M.A. in User Experience and Interaction Design (UI/UX) is designed for those who aspire to shape the future of digital design by focusing on creating seamless, intuitive, and user-centered digital experiences. This course will equip you with the necessary skills to design user interfaces that are both functional and visually engaging, while ensuring a positive user experience across various platforms.

What will you learn?

- UX Design Principles
- UI Design Fundamentals
- Human-Computer Interaction (HCI)
- Usability Testing
- Interaction Design
- Mobile and Web Design
- Prototyping and Wireframing
- User Research & Personas
- UI/UX Tools and Software

How can you start your career?

- UX Designer
- UI Designer
- Interaction Designer
- Product Designer
- Usability Analyst
- Design Strategist
- Freelance UI/UX Designer
- User Research Specialist
- Information Architect
- Visual Designer

Course Structure

First Year

- Fundamentals of UI/UX
- Human psychology in design and interaction
- Elements of Visual identity
- Design research - I (Research)
- Digital design - I (AI and PS)
- User research and analysis
- Visual design principles
- Persona development
- HCI-Human Computer Interaction
- Digital design - II (Figma)
- Design research - II (UI)

Second Year

- Fundamentals of wireframing
- Principles of UX
- Desktop publishing
- Elective - Designing for emerging technologies
- Prototyping and testing
- Digital design - III (Figma and AE)
- Design research - III (UX)
- UI research portfolio
- Experience design
- Sustainable designs
- Elective - Integration of AI and ML
- Capstone project
- UX portfolio
- Portfolio development

**All degrees are provided by respective universities which the centre is associated with

This course blends creativity with technical skills, preparing you to thrive in the dynamic field of interior design.

What will you learn?

- Fundamentals of Interior Design
- Construction Materials & Techniques
- 2D & 3D Visualisation
- CAD Software Proficiency
- Lighting & Acoustics
- Sustainable Design Practices
- Professional Practice

How can you start your career?

- Interior Designer
- Interior Decorator
- CAD Designer
- Space Planner
- Interior Stylist and Decorator
- Furniture Designer
- Set Designer (Theatre, Film, TV)
- Project Coordinator
- Exhibition Designer
- Visual Artist
- Educator
- Visual Merchandiser
- Design and Sales Consultant
- Materials Expert

Course Structure

First Year

- Interior Design Studio - I
- Fashion Theory
- Management Process & Organisational Behaviour
- English -I : Communicative English: Spoken and Written
- Design Communication - I
- Sustainable Development & Ecology / Environmental Practices in Goa
- Constitutional Values & Obligations
- Interior Design Studio - II
- History of Costumes, Clothing culture and communication
- Performance Process of Goan Folk Drama: Gawada Jagor
- English -II : Digital Content Creation in English
- Design Communication - II
- Green Energy System
- Life Skills

Second Year

- Interior Design Studio - III
- Furniture Design - I
- Art and Aesthetics
- Design Communication - III
- Mordern Indian Languages - Hindi / Konkani / Marathi / Kannada / French & Portuguese
- Career Planning & Interview Preparation
- Interior Design Studio - IV
- Building Services - I
- Building Construction
- Theory of Design - I
- Advertising, Branding & Interior Photography
- Mordern Indian Languages - Hindi / Konkani / Marathi / Kannada / French & Portuguese

Third Year

- Interior Design Studio - V
- Building Services - II
- Furniture Design - II
- Theory of Design - II
- Interior Landscape Design
- Internship
- Working Drawing
- Specification, Estimation & Costing
- Visual Merchandising
- Interior Design Studio - VI
- Graphic Design

Sparkle with Creativity

B.Sc. in

JEWELLERY DESIGN - 3 Years **

Eligibility: 10+2/PUC/Intermediate or Equivalent From a Recognized Board (With Min. 40%)

Why this course?

Jewellery Designing is an exciting program that combines artistic creativity with technical precision. This course equips you with the skills needed to design stunning pieces of jewellery that reflect your unique style while adhering to industry standards. With a focus on innovation, craftsmanship, and fashion trends, this course is perfect for those who are passionate about turning ideas into beautiful, wearable art.

What will you learn?

- Fundamentals of Jewellery Design
- Jewellery Sketching & Rendering
- Metal and Gemstone Selection
- Casting & Fabrication Techniques
- 3D Jewellery Design
- Jewellery History & Trends
- Business of Jewellery
- Jewellery Manufacturing & Production

How can you start your career?

- Jewellery Designer
- Jewellery Manufacturing Specialist
- Gemologist
- Jewellery Entrepreneur
- Fashion Accessories Designer
- 3D Jewellery Designer
- 2D Jewellery Design
- Jewellery Consultant
- Jewellery Marketing Specialist
- Jewellery Designer – Manual
- Entrepreneur
- Jewellery Visual Merchandiser
- Jewellery Merchandiser

Course Structure

First Year

- Design Thinking & Process
- History of Jewellery
- Fundamentals of Jewellery
- Environmental Science/EVS
- Jewellery Design 1
- Foundation Art Studies
- Metallurgy
- Jewellery Trend Forecasting
- Communication
- Illustration & Rendering Techniques
- Jewellery Design II
- Orthographic Drawing

Third Year

- Diamond Grading
- Gemology II
- Intellectual Property Rights / IPR
- Product & Jewellery Styling
- Jewellery Design 5
- Computer Aided Design (3D)

Second Year

- Supply Chain Management
- Jewellery Cost & Budgeting
- Manufacturing Techniques in Jewellery
- Jewellery Design 3
- Computer Aided Design (2D)
- Gemology I
- Brand Study
- Personality Development/PD
- Visual Merchandising
- Jewellery Design 4
- Craft Documentation

- Marketing & Brand Management
- Consumer Behaviour
- Professional Practices
- Retail Management
- Portfolio
- Project

- Branding & Identity Design
- Digital Media & Web Design
- Advertising & Marketing Design
- Photography & Videography
- Creative Problem-Solving

How can you start your career?

- Visual Designer
- Branding Specialist / Brand Strategist
- Packaging Designer
- Multimedia Designer
- Motion Graphics Designer / VFX
- 2D Animator
- Storyboard Artist
- PrepPaint Artist
- Roto Artist
- Art Director
- Creative Director
- Freelance Designer / Entrepreneur
- Digital Content Creator

Course Structure

First Year

- Visualization and Representation - I
- Art & Aesthetics
- Fundamentals of Design - I
- Material Exploration
- Digital Fluency
- Fundamentals of Design - II
- Visualization and Representation - II
- Design Communication
- Geometry
- Foundation Project

Second Year

- Visual Design Principles-I
- Design & Illustrations-I
- Digital Imagery-I
- Typography-I
- Interfusion Studies & research
- Sustainable practices
- Visual Design Principles-II
- Design & Illustrations-II
- Digital Imagery-II
- Typography-II
- Interfusion Studies & research
- Entrepreneurship

Third Year

- Design Suite-I
- Interfusion Studies & research
- Design Suite-II
- Fundamentals of Animation
- Fundamentals of Film making
- CGI & Post production techniques
- Interfusion Studies & research
- Motion Graphics and compositing

Fourth Year

- Graduation Project-I
- Introduction to User experience design
- Design Thesis
- Graduation Project-II
- Portfolio Development

**All degrees are provided by respective universities which the centre is associated with

Unlock Your Creativity with

Diploma in

FASHION DESIGN - 3 Years

Eligibility: 10+2/PUC/Intermediate or Equivalent From a Recognized Board (With Min. 40%)

Why this course?

The Diploma in Fashion Design focuses on key aspects of fashion design, including sketching, fabric science, garment construction, and pattern making. The course also integrates trend forecasting, fashion marketing, and visual merchandising, providing a well-rounded skill set that prepares students for the fast-paced world of fashion.

What will you learn?

- Develop a well-rounded perspective on fashion design by blending theory, history, and innovation, while exploring its potential for growth and evolution.
- Nurture a personal creative vision and identify key areas for specialization in fashion design.
- Build expertise in designing fashion collections and utilizing trend forecasting platforms like WGSN (Worth Global Style Network) for accurate market predictions.
- Gain a thorough understanding of fashion design practices and methodologies, ensuring competence in their application.
- Acquire practical experience in textile and garment construction processes, enhancing design knowledge.

How can you start your career?

- Fashion Designer
- Textile Designer
- Fashion Illustrator
- Fashion Stylist
- Fashion Consultant
- Merchandiser
- Fashion Entrepreneur
- Fashion Trend Analyst

Course Structure

First Year

- Art & Costume Appreciation
- Fashion Theory
- Foundation Art Studies
- Basics of Pattern Making & Sewing Techniques
- Surface Design Techniques - I
- Pattern Drafting - I
- Design Process
- Draping
- Construction Technique - I
- Fashion Illustration - I

Second Year

- Pattern Drafting - II
- Construction Technique - II
- Elements of Textile
- Graphic Design - II
- Adobe Photoshop
- Fashion Forecasting
- Fashion Illustration - II
- Surface Design Techniques - II
- Graphic Design - II
- Adobe Illustrator

Third Year

- Fashion Visual Merchandising
- Fashion Styling
- Fashion Merchandising & Marketing
- Craft Study
- Business Communication & Professional Practices
- Retail & Brand Management
- Entrepreneurship
- Portfolio Development

Shape the Future of Interiors with

Diploma in

INTERIOR DESIGN - 3 Years

Eligibility: 10+2/PUC/Intermediate or Equivalent From a Recognized Board (With Min. 40%)

Why this course?

The Diploma in Interior Design is a comprehensive program that equips students with the skills and knowledge to create functional, aesthetically pleasing, and innovative interior spaces. The course covers essential areas of interior design, such as space planning, color theory, furniture design, lighting, materials, 3D visualization, project management and sustainability.

What will you learn?

- Acquire the skills to visual and verbally articulate their ideas and concepts through both technical and creative mediums, supported by a pedagogy that values innovation and experimentation.
- Identify issues and potential concerns of the industry and offer effective solutions that are adaptable and versatile.
- Develop a personal identity and realise areas of specialisation and interest.
- Develop the skills to be an efficient and effective entrepreneur.

How can you start your career?

- Interior Designer
- Interior Decorator
- CAD Designer
- Space Planner
- Interior Stylist and Decorator
- Furniture Designer
- Set Designer (Theatre, Film, TV)
- Exhibition Designer
- Visual Artist
- Educator
- Visual Merchandiser
- Design and Sales Consultant
- Materials Expert

Course Structure

First Year

- Foundation Art and Material Studies
- Basic Design
- Anthropometry & Ergonomics
- Introduction to Space Design
- Interior Drafting & Standards
- History of Interior Design
- Construction Material – I
- Design Thinking & Process
- Interior Styling & Accessories

Second Year

- Space Design – I
- Construction Material – II
- Lighting Design
- Sustainability & Climatology
- CAD I – AutoCAD
- Services – Plumbing, Electrical & HVAC – I
- Estimation & Costing
- Interior Working Drawing & Detailing – I
- Space Design – II
- CAD II – SketchUp & V-Ray
- Project I – Residence

Third Year

- Services – Plumbing, Electrical & HVAC – II
- Interior Working Drawing & Detailing – II
- Professional Practices & Ethics
- Furniture Design & Construction
- Project II – Office Design
- Professional Communication & Marketing
- Portfolio Development
- Business of Interior Design
- Design Trends & Advancement
- Project III – Retail Design
- JD Design Awards

Turn everyday moments into runway statements with
Advanced Diploma in

FASHION DESIGN

- 3 Years

Eligibility: SSC (10th Standard), +2 or graduation of any stream

Why this course?

This 3-year course enables you to get anchored in the world of fashion by absorbing its foundations, science, and art.

What will you learn?

- Deep knowledge of trends and fabrics
- Master latest technologies and design visualizations
- Latest industry trends in many workshops & using WGSN
- Holistic approach to fashion from concept to delivery
- Understand export & buying houses
- Hands-on experience in textile explorations

How can you start your career?

- Freelance Designer / Entrepreneur

Course Structure

First Year

- Visualization and Representation
- Design Foundations
- Sustainable Practices
- Research Methodology
- Design Language
- Graphic and Communication Design
- Digital Design-I
- Visual Contexts and Systems Thinking
- Interdesign Studies

Second Year

- Graphic and Print media
- Advertising Design
- Digital Design-II
- Interaction and Experience Design
- InterFusion Studies & Research-I
- Fundamentals of Animation
- Portfolio Development
- InterFusion Studies & Research-II
- Graduation project

Elevate Your Design Career with

PG Diploma in

UI/UX DESIGN - 2 Years

Eligibility: SSC (10th Standard), +2 or graduation of any stream

Why this course?

The PG Diploma in UI/UX Design is a comprehensive two-year program that prepares students to create intuitive, user-friendly digital experiences. This course blends technical proficiency with artistic creativity, offering hands-on experience in conceptualizing and prototyping digital solutions.

What will you learn?

- UI/UX Design Fundamentals
- Prototyping & Wireframing
- Design Thinking
- User Research
- Digital Tools
- AI in UX Design
- Web Hosting

How can you start your career?

- UX Designer
- UI Designer
- Interaction Designer
- Digital Product Designer
- UX Researcher
- UX/UI Consultant
- Design Specialist
- Freelance Designer

Course Structure

First Year

- Fundamentals of UI/UX
- Human Psychology in Design & Interaction
- Elements of Visual Identity
- Digital Design - I
- Design Research - I
- User Research and Analysis
- Visual Design Principles
- Persona Development
- HCI – Human Computer Interaction
- Digital Design - II
- Design Research - II (UI)

Second Year

- Fundamentals of Wireframing
- Principles of UX
- Desktop Publishing
- Elective – Designing for Emerging Technologies
- Prototyping & Testing
- Digital Design - III
- Design Research - III
- UI Research Portfolio
- Experience Design
- Sustainable Designs
- Elective – Integration of AI & ML
- Capstone Project
- UX Portfolio
- Portfolio Development
- JD Design Awards

Create Your Style, On Your Schedule with Create Your

Diploma in

FASHION DESIGN

- 1 Year

Eligibility: SSC (10th Standard), +2 or graduation of any stream

Why this course?

The Diploma in Fashion Design is an intensive one-year program designed to provide students with a solid foundation in fashion and apparel design. The course combines creative exploration with technical training to help students transform concepts into contemporary fashion products.

Why this course?

The Bachelors in Digital Design Experience in Animation & Multimedia is a dynamic program crafted for creative minds eager to master both 2D and 3D animation. Blending artistic development with technical training, this course provides a robust foundation in animation, storytelling, design principles, and multimedia production.

What will you learn?

- Drawing & Visual Storytelling
- 2D & 3D Animation Techniques
- Storyboarding & Cinematic Language
- Multimedia & Motion Graphics
- Sound, VFX & Post-Production
- Capstone Project & Portfolio
- AI & Emerging Tech in Animation

How can you start your career?

- 2D / 3D Animator
- Character Animator
- Storyboarding Artist
- Game Asset Artist
- Cinematic Animator
- Motion Graphics Designer
- VFX Artist
- Pre-Production Artist
- Composer

Course Structure

First Year

- Fundamentals of Design & Composition
- Drawing & Observation for Designers
- Visual Language & Semiotics
- Introduction to Communication Design
- Principles of Animation
- Storyboarding
- Clay Modeling
- 2D Animation Basics

Second Year

- Introduction to 3D Software
- Environment Design
- Lighting and Rendering Basics
- Object Modeling
- Acting and Expression in Animation
- 3D Rigging
- Animation Production Process
- Animation Project

Third Year

- Digital effects and Compositing
- Sound and Editing
- Visual Design for Animation
- Project Planning
- Capstone Project: Immersive Design Solution
- Design Communication & Professional Practice
- Portfolio & Showreel Development

Elevate your career for a new design era with

Bachelors in Digital Design Experience in

IMMERSIVE DESIGN

- 3 Years

Eligibility: 10+2/PUC/Intermediate or Equivalent From a Recognized Board (With Min. 40%)

Why this course?

The Bachelors in Digital Design Experience in Immersive Design is a future-forward program that blends traditional design foundations with cutting-edge technologies such as Augmented Reality (AR), Virtual Reality (VR), and UX/UI Design. Over three years, you will learn how to create interactive, sensory-rich digital experiences that influence how users see, feel, and engage with content.

What will you learn?

- Design Fundamentals
- Storyboarding & Visual Narratives
- Graphic & Communication Design
- Motion Graphics & Micro Animation
- UX/UI Design & Digital Interfaces
- AR/VR & Immersive Media
- Photography, Videography & Mixed Media
- Professional Portfolio & Industry Projects

How can you start your career?

- Visual Communication Designer
- Motion Graphics Designer
- Experience Designer (UX/UI)
- AR/VR Designer
- Digital Product Designer
- Multimedia Designer
- Spatial Experience Designer
- Information Designer
- Visual Storyteller
- Design Researcher
- Content Designer
- Brand Designer
- Digital Art Director
- Junior Creative / Designer

Course Structure

First Year

- Fundamentals of Design & Composition
- Drawing & Observation for Designers
- Visual Language & Semiotics
- Introduction to Communication Design
- Storyboarding & Sequential Thinking
- Color Theory & Spatial Composition
- Illustrations and Mixed Media
- Design Disciplines

Second Year

- Graphic & Communication Design
- Typography: Structure & Expression
- Digital Tools for Designers
- Design for Digital Media
- Visual Communication & Media (screens based)
- Introduction to Experience Design (UX/UI)
- Micro Animation & Motion Graphics
- Photography & Videography for Designers

Third Year

- AR/VR Design Principles
- Designing Multi-Sensory Experiences
- Elective (Motion/Interaction /Spatial)
- Industry Project
- Capstone Project: Immersive Design Solution
- Design Communication & Professional Practice
- Portfolio & Showreel Development

Bring Stories to Life with

Diploma in

ANIMATION & MULTIMEDIA

- 1 Year

Eligibility: 10+2/PUC/Intermediate or Equivalent From a Recognized Board (With Min. 40%)

Why this course?

The Animation & Multimedia Professional Certificate Program is a comprehensive, full-time diploma designed for aspiring animators, artists, and creative professionals. This intensive one-year program bridges traditional animation artistry with modern 2D and 3D digital workflows — giving students the creative and technical edge to succeed in animation, gaming, and digital media.

What will you learn?

- Foundations of Animation
- Traditional & Digital 2D Animation
- Storyboarding & Visual Planning
- 3D Animation Fundamentals
- Lighting, Rendering & Camera Movements
- Production Pipeline & Project Management
- Final Short Animation Project

How can you start your career?

- 3D Animator
- Character Designer
- Storyboard Artist
- 3D Modeler
- Lighting and Rendering Artist
- Game Asset Designer
- Freelance Animator or Designer

Course Structure

First Semester

Foundations of Animation

- Drawing Fundamentals
- Principles of Animation
- Cel Animation Techniques
- Introduction to 2D Animation

Second Semester

2D & 3D Animation Production

- Introduction to 3D Animation Software
- 3D Background Design and Layouts
- Basic Lighting and Rendering
- Final Short Animation Project

Master the Art of Cinematic Magic with

Diploma in

VFX & COMPOSITING

- 1 Year

Eligibility: 10+2/PUC/Intermediate or Equivalent From a Recognized Board (With Min. 40%)

Why this course?

The VFX & Compositing Professional Certificate Program is a one-year, full-time diploma designed to equip students with practical skills and advanced techniques in visual effects and digital post-production. Whether you're aiming for the world of film, television, advertising, or new media, this course delivers the hands-on training and industry exposure required to turn imagination into stunning visual reality.

What will you learn?

- VFX Foundations & Industry History
- Rotoscoping & Green Screen
- Compositing Techniques
- Matchmoving & Camera Tracking
- 3D Integration for VFX
- Color Correction & Grading
- AI in VFX Workflows
- Final VFX Project & Portfolio Development

How can you start your career?

- VFX Compositor
- Motion Graphics Designer
- Roto & Paint Artist
- Matchmove Artist
- Digital Matte Painter
- VFX Editor
- AI-Assisted Content Creator
- Post-Production Generalist

Course Structure

First Semester

Fundamentals of VFX & Compositing

- History of VFX
- Camera & Lighting Basics
- Rotoscoping Techniques
- Chroma Keying
- Introduction to Compositing

Second Semester

Advanced Compositing & CGI Integration

- 3D Compositing
- Matchmoving & Camera Tracking
- VFX Shot Integration
- Color Correction & Grading
- Final Compositing Project

Start an Immersive Design Career with

Diploma in

WEB DESIGN & DEVELOPMENT - 1 Year

Eligibility: 10+2/PUC/Intermediate or Equivalent From a Recognized Board (With Min. 40%)

Why this course?

The Web Design & Development Professional Certificate Program is a comprehensive, one-year diploma crafted for beginners and aspiring professionals who want to master both UI/UX design and front-end web development. This immersive program blends aesthetic sensibility with technical precision, enabling students to design beautiful, responsive, and fully functional websites and applications.

What will you learn?

- UI/UX Design Fundamentals
- HTML & CSS for Structuring the Web
- JavaScript & DOM Manipulation
- Front-End Frameworks
- Responsive Design & Bootstrap
- Version Control & Deployment
- Back-End Basics
- Portfolio Projects & Prototyping

How can you start your career?

- Web Designer
- Front-End Web Developer
- UI/UX Designer (Junior Level)
- Junior Full-Stack Developer
- WordPress Developer
- Freelance Web Designer / Developer

Course Structure

First Semester

Foundations in Web Design

- Foundations in Web Design
- Web Design Principles
- Graphic Design for Web
- HTML & CSS Fundamentals
- Introduction to JavaScript
- Project: Personal Portfolio Website
- Workshop: Wireframing & Prototyping

Second Semester

Web Development & Deployment

- Web Development Fundamentals
- JavaScript & DOM Deep Dive
- Frontend Frameworks
- Backend Basics
- Web Hosting & Deployment
- Final Project: Responsive Web Application
- Workshop: AI Tools for Designers & Developers

Start Your Dynamic and Creative Career with

Diploma in

ANIMATION & VFX

- 1 Year

Eligibility: 10+2/PUC/Intermediate or Equivalent From a Recognized Board (With Min. 40%)

Why this course?

The Animation & VFX Diploma Program is an intensive, one-year training designed for beginners and aspiring creatives looking to explore the dynamic worlds of 2D animation, 3D design, and visual effects. Blending traditional art techniques with cutting-edge digital tools, this program equips students with a strong foundation in animation principles, 3D production pipelines, and industry-standard VFX workflows.

What will you learn?

- Drawing & Animation Foundations
- 2D Animation Techniques
- 3D Animation Production
- History & Evolution of VFX
- Introduction to Digital Compositing
- 3D for Compositing
- Color Correction & Grading
- Final Compositing Project

How can you start your career?

- Junior 3D Artist
- VFX Artist
- Animation Assistant
- Motion Graphics Designer
- Game Asset Designer
- Video Editor (Film/Digital Media)

Course Structure

First Semester

Fundamentals of Animation

- Drawing Fundamentals
- Principles of Animation
- Introduction to 2D Animation
- "Introduction to 3D Animation Software (Understanding to create basis of modeling, texturing, lighting, rigging, animation & Rendering).

Second Semester

Fundamentals of VFX

- History of VFX
- Introduction to Compositing
- 3D for Compositing
- VFX Shot Integration
- Color Correction & Grading
- Final Compositing Project

Elevate your Artistic Storytelling Skills with

Diploma in

ANIMATION

- 52 Sessions (Weekend)

Eligibility: 10+2/PUC/Intermediate or Equivalent From a Recognized Board (With Min. 40%)

Why this course?

The Weekend Animation Diploma Program is a beginner-friendly, part-time course tailored for aspiring animators who want to develop their artistic and technical skills without disrupting their weekday schedules. Spanning 52 intensive Sunday sessions, this hands-on program introduces students to the core principles of animation, traditional drawing skills, and essential 2D and 3D animation techniques.

What will you learn?

- Drawing & Design Fundamentals
- Principles of Animation
- 2D Animation Techniques
- Introduction to 3D Animation
- Visual Storytelling with Lighting & Cameras
- Hands-On Projects & Practical Exercises

How can you start your career?

- Junior 2D / 3D Animator
- Animation Intern
- Motion Graphics Assistant
- Storyboard Assistant
- Freelance Animator (Entry-Level)
- Multimedia Production Assistant

Course Structure

Fundamentals of Animation

- Drawing Fundamentals
- Principles of Animation
- Introduction to 2D Animation

3D Animation

- Introduction to 3D Animation Software
- Understanding to create basig of modeling, texturing, lighting, rigging, animation & Rendering

Elevate your Digital Design Career with

Diploma in

VFX & COMPOSITING

- 52 Sessions (Weekend)

Eligibility: 10+2/PUC/Intermediate or Equivalent From a Recognized Board (With Min. 40%)

Why this course?

The Weekend VFX & Compositing Diploma Program offers a beginner-friendly, part-time path into the world of visual effects. Designed for aspiring VFX artists, content creators, and film enthusiasts, this 52-session Sunday-only course provides a hands-on introduction to the entire VFX pipeline—from capturing live-action footage to creating professionally composited sequences.

What will you learn?

- History of VFX
- Camera & Lighting Basics for VFX
- Introduction to Compositing
- VFX Shot Integration
- Color Correction & Grading
- Final Compositing Project

How can you start your career?

- VFX Intern
- Compositing Assistant
- Junior Motion Graphics Artist
- Freelance Visual Effects Artist
- Media Production Assistant
- Post-Production Assistant
- Color Grading Assistant
- Video Content Creator (YouTube, Social Media)
- Assistant Editor with VFX knowledge

Course Structure

- History of VFX
- Camera & Lighting Basics
- Introduction to Compositing (Adobe After Effects & Premiere Pro)
- VFX Shot Integration
- Color Correction & Grading
- Final Compositing Project

Design functional art for everyday living with

Diploma in

FURNITURE & INTERIOR PRODUCT DESIGN

- 1 Year

Eligibility: 10+2/PUC/Intermediate or Equivalent From a Recognized Board (With Min. 40%)

Why this course?

This beginner-friendly diploma is ideal for those passionate about furniture, interior products, and hands-on design. It combines practical studio work with digital tools and material exploration. A perfect launchpad for careers in furniture and product design.

What will you learn?

- Furniture & Product Design Principles
- Technical Drafting & Joinery Details
- Material Studies & Surface Finishes
- Prototyping & Workshop Practices
- Digital 3D Modeling
- Rendering & Visualization Tools
- Design Studio Projects

How can you start your career?

- Furniture Designer
- Interior Product Designer
- Model Maker / Prototype Fabricator
- CAD Draftsperson (Furniture)
- Furniture Production Coordinator
- Design Assistant in Interiors / Retail Studios
- Product Visualization Freelancer
- Custom Furniture Brand Owner
- Interior Accessories Designer

Course Structure

Foundations in Furniture & Product Design

- Evolution of Furniture & Product Design
- Elements of Design + Ergonomics
- Drawing & Drafting Techniques
- Material Exploration I
- Software I – AutoCAD + SketchUp
- Design Studio I

Applied Product Development & Digital Fabrication

- Modular & Flat-Pack Systems
- Material Exploration II
- Advanced Software – Fusion360 / Rhino + Rendering
- Product Detailing & Installation
- Design Studio II – Final Project
- Portfolio & Jury Prep

Craft Immersive Spaces with

Diploma in

ARCHITECTURAL DESIGN & VISUALIZATION

- 1 Year

Eligibility: 10+2/PUC/Intermediate or Equivalent From a Recognized Board (With Min. 40%)

Why this course?

Launch your architectural design journey with a studio-based, beginner-friendly diploma that merges spatial thinking with advanced visualization tools. Ideal for creative individuals interested in designing buildings and visual storytelling through digital media. Offered at JD Institute's campuses in Bengaluru, Cochin, and Goa.

What will you learn?

- Foundational Design Principles
- Professional Drafting Skills
- Site Planning & Structural Awareness
- Design Studios & Real-World Projects
- 3D Modeling Proficiency
- Rendering with Enscape & V-Ray
- Post-Production with Photoshop

How can you start your career?

- 3D Visualizer
- Architectural Draftsman
- Junior Assistant visualizer
- Design & Presentation Specialist
- AutoCAD Technician
- Freelance Visualizer
- Interior-Architecture Support
- Real Estate Visual Assistant

Course Structure

Architectural Design Foundations

- Introduction to Architecture
- Architectural Graphics & Drafting
- Building Construction Basics
- Design Studio I
- AutoCAD 2D
- Freehand & Measured Drawing

Digital Visualization & Applied Design

- Site Planning & Massing
- Structural Awareness
- SketchUp
- Rendering with V-Ray / Enscape
- Post-Production (Photoshop)
- Final Project

Master the Digital World with JD Institute x TheStyle.World
Certificate Program in

SOCIAL MEDIA & INFLUENCER MARKETING

- 16 Sessions

Eligibility: 10+2/PUC/Intermediate or Equivalent From a Recognized Board (With Min. 40%)

Why this course?

JD Institute in collaboration with TheStyle.World introduces Social Media & Influencer Marketing - a program designed to equip aspiring digital professionals, entrepreneurs, content creators, and career changers with in-demand skills to succeed in the fast-evolving digital ecosystem.

What will you learn?

- Develop and execute cross-platform social media strategies.
- Plan, launch, and optimise advertising campaigns using Meta Ads Manager.
- Produce engaging multimedia content (images, videos, Reels, podcasts).
- Build and manage communities and brand presence on digital platforms.
- Collaborate effectively with influencers and measure campaign ROI.
- Utilise Generative AI tools for faster, creative content creation.
- Apply graphic design and visual storytelling principles.
- Build an online presence or personal brand using proven influencer strategies.

How can you start your career?

- Social Media Manager
- Influencer Marketing Manager
- Digital Marketing Executive
- Content Strategist
- Campaign Manager
- Social Media Analyst
- Community Manager
- Digital Brand Strategist
- PR Specialist (Digital Focus)
- Performance Marketing Specialist
- Freelance Content Creator or Influencer

Course Structure

- Module 1: Introduction to Social Media Marketing
- Module 2: Social Media Content Management
- Module 3: Fundamentals of Social Media Advertising
- Module 4: Advertising with Meta
- Module 5: Measure and Optimise Social Media Marketing Campaigns
- Module 6: Meta Social Media Capstone
- Module 7: Influencer Marketing Strategy
- Module 8: Content Marketing Strategy
- Module 9: Creating Engaging Content for Instagram
- Module 10: Graphic Design
- Module 11: Principles of Photo Composition and Digital Image Post-Production
- Module 12: Video Editing with Adobe Express
- Module 13: Multimedia Content Creation
- Module 14: Generative AI Content Creation
- Module 15: Marketing, Communication, and PR
- Bonus: Module 16 features specialised influencer workshops in niche domains such as food, fashion, lifestyle, travel, fitness, tech, and automotive content creation.

INFRASTRUCTURE

Shaping global and local perspectives with

THE INTERNATIONAL AND NATIONAL STUDY TOUR

The International and National Study Tour (Imagination Journey) was initiated to encourage students to develop a global perspective that would aid in their educational journey. The benefit that one can derive from the intensive experience is that it provides exposure to a whole new world while still being a student. This helps build confidence and allows them to be more observant, gain a hands-on view about the industry and understand the finer nuances through a guided structure by renowned industry experts. These experiences can then be incorporated into their current student work and future projects.

Crafting great outcomes with **INTERNATIONAL COLLABORATIONS**

Global collaborations are essential to education as it facilitates the broad exchange of ideas, knowledge and perspectives from experts from around the world. It increases cross-cultural understanding and fosters empathy. Collaborative projects enable the sharing of resources and expertise, leading to improved access to innovative teaching methods and diverse learning opportunities.

In addition, global collaboration in education equips students with the skills they need to thrive in an increasingly connected world & encourages global citizenship and responsibility. Ultimately, this international cooperation lays the foundation for overcoming global challenges and sustainable development on a global scale.

Making learning always relevant with the

JEDIIAN DESIGN COUNCIL

The Jediian Design Council is a student body curated to create a community of like-minded individuals to spread awareness and empower students. The Council is geared towards planning and organising events in college and develop a platform to interact with fellow students to enhance their academic journey.

The Council is looking for students that have a passion for aspects like event management, graphic design, social media management, content writing and photography! At the Jediian Design Council, we focus on creating a unique environment that gives one the freedom to focus on their individual growth as well as building a team. The working of the community resembles that of a corporate work culture and gives members a head start in their career and pushes them a step further in achieving their goals.

As a Jediian, one gets the opportunity to develop their communication, networking & entrepreneurial skills, making them street smart & observant.

INDUSTRY EVENTS

Connecting bold talent & brilliant opportunities with our **RECRUITMENT DRIVE**

Recruitment drives act as a vital bridge between the theoretical knowledge imparted within the institute's walls and the practical demands of the real design world. They offer students a glimpse into the actual challenges and opportunities that await them once they step into their professional careers. These events provide students with an invaluable chance to gain real-world experience. By interacting with design firms and creative agencies, students can apply their skills to actual design projects and gain a deeper understanding of industry dynamics.

Students can refine their design skills, learn about the latest industry trends, and enhance their portfolios. These events expose students to a wide array of design specializations and career paths, helping them make informed decisions about their future. Whether it's graphic design, industrial design, or user experience design, students can explore their options.

Facing job interviews and presenting portfolios to industry experts during recruitment drives builds students' confidence. This newfound self-assuredness can serve them well in their future job searches and professional interactions. Students gain insights into the industry's demands, expectations, and evolving trends. This knowledge equips them with a competitive edge, ensuring they remain relevant and adaptable in the ever-changing world of design. Recruitment drives attract a diverse range of design companies. This diversity ensures that students have access to a wide spectrum of career opportunities, catering to different aspirations and interests.

The organization of recruitment drives by JD Institute of Fashion Technology is not merely a formality but a strategic investment in their students' success. These events empower them with practical experience, industry connections, and the confidence to embark on rewarding careers in the world of design.
